

People Core

by Talentech

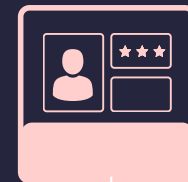

All your people data in **one place**

Take care of your HR master data in one secure and GDPR compliant solution.

Manage crucial data and documents about your employees

- ✔ Store **employment contracts** on the employee profile and see position history.
- ✔ Easily manage **employee absence** and **vacation** in the same solution.
- ✔ **Self service.** Let employees add and update personal data themselves.

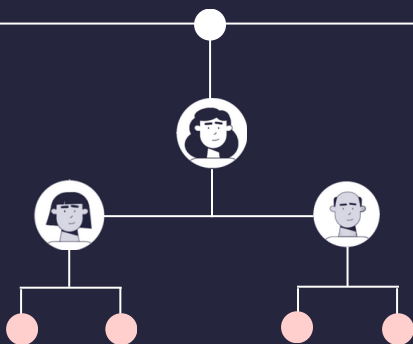

People and Position overview

- ✔ Visualize your **position hierarchy**, employee status and employment data in one powerful overview.
- ✔ Keep track of **people on the way in and out** to ensure excellent transitions.
- ✔ Identify **current and coming vacancies** to be on top of your recruitment

Keep an organizational overview

- ✔ Create overview with **3 organizational dimensions:** departments, legal entities and locations.
- ✔ Manage and oversee which department, legal entity and location each employee belong to.
- ✔ **User friendly interface** with drag and drop, resulting in real time changes.

Data and insights right at hand

- ✔ Always know the current state of your organization. You'll have an **intuitive dashboard** with the most important KPIs like headcount, vacancies, age and gender distribution, employees in transitions etc.

HR Admin with an intuitive and user friendly interface
